EDUCATION

Bachelor of Computer Science, Honours, University of Windsor Sep 2023 – May 2028
Statistics Minor, Dean's List, Best Undergraduate Project 2025 (Spotify Playlist Manager)
Teaching Assistant: Data Structures & Algorithms, Computer Architecture
Relevant Coursework: System Programming, Intro to Software Engineering, Object Oriented Programming in Java

PROFESSIONAL EXPERIENCE

Full Stack Developer (Founder) Windsor ON
Sons of Caesar Mar 2026 – Present

- Built and deployed a full-stack ticketing platform (React/TypeScript, FastAPI, PostgreSQL, Stripe API), processing 150+ live purchases and replacing a third-party ticketing service
- Built an image pipeline serving 90+ event photos from Cloudflare R2 via CDN, cutting page weight by ~90% with automated WebP resizing
- Co-founded a student entertainment group hosting events for 700+ attendees and generating $6,000+ in revenue

Software Developer Co-op Windsor ON
GreenShield Jan 2026 – Apr 2026

- Integrated Google Invisible reCAPTCHA into Provider Connect's login, protecting 150K+ healthcare provider accounts from automated bot attacks with zero added user friction
- Built ASP.NET Core (C#) conditional form rendering for provider onboarding, showing only relevant fields based on user input and shortening forms for both dental and extended health providers
- Shipped 15+ ASP.NET features across Provider Connect, using Azure DevOps for CI/CD pipelines and sprint tracking

Contact Center Co-op Windsor ON
GreenShield May 2026 – Aug 2026

- Built a Python + Claude API pipeline processing 1,000 call transcripts in ~18 minutes, scoring sentiment and escalation risk across each call
- Resolved 70+ member web and insurance calls per day using Call Advantage and Verint EM

PROJECTS

Frogg | *Python, discord.py, SQLite, Railway* Aug 2026 – Present

- Deployed Frogg, a Discord bot posting Canadian co-op listings every 6 hours to 848 users across 26 servers
- Built Python scrapers across Greenhouse, Lever, and Workday tracking 350+ roles at 121 Canadian companies, with SQLite deduplication feeding the bot and a public GitHub listings repo that auto-updates every 30 min (22 stars)

Walksafe App | *TypeScript, React Native, Expo, Firebase* Sep 2026 – Present

- Sole developer of UWindsor's official campus safety app, building volunteer matching, real-time location tracking, and escort requests end to end - launching this semester

Open Source | *Rust* Oct 2026

- Merged a Rust bug fix with a regression test into FigCraft (4.1k stars), an open-source design tool, fixing cursor jitter misread as a drag in the Pen tool

LEADERSHIP

BSCS (Black Students in Computer Science) Windsor ON
Co-Founder & Co-President Oct 2025 – Present

- Grew BSCS to 70+ members via 10+ events and co-hosted NEX-GEN 2026 with NSBE, drawing 150+ attendees
- Led a 9-person team building and maintaining the official BSCS website in React and JavaScript

ColorStack UWindsor Windsor ON
President Aug 2026 – Present

- Founded Ontario's first ColorStack chapter, one of 90+ connecting Black and Latinx CS students to tech careers

TECHNICAL SKILLS

Languages: C#, Java, TypeScript, JavaScript, Python, SQL, C
Libraries: ASP.NET Core, React Native, React, Node.js, FastAPI, discord.py
Tools: Git, Azure DevOps, PostgreSQL, Firebase, SQL Server, Claude API, Stripe API, Cloudflare R2, Claude Code
