SEUN SAMUEL-IPAYE

519-992-7159 | samueli@uwindsor.ca | www.seun.ink

Education

Bachelor of Computer Science, Honours Computer Science Co-op Sep 2023 - May 2028
University of Windsor • Dean's List | Best Undergraduate Project 2025

Professional Experience

Software Developer Co-op Jan 2026 - April 2026
GreenShield • C#, .NET Core, SQL Server, Azure DevOps, IIS Express

- Integrated Google Invisible reCAPTCHA into Greenshield's Provider Connect authentication flow, strengthening platform security for 150K+ healthcare providers.

Contact Center Co-op May 2026 - Aug 2026
GreenShield • Python, Call Advantage, Verint EM

- Built a call analytics pipeline in Python that processes contact center transcripts to surface insights on call volume, denial reasons, and geographic trends across plan member and provider calls.

Teaching Assistant Sep 2025 - Dec 2025 &
University of Windsor • Data Structures and Algorithms | Computer Architecture Sep 2026 - Present

- Supported 240 students across Data Structures and Algorithms and Computer Architecture, reinforcing concepts from algorithm complexity to CPU architecture through office hours and lab sessions.

Projects

WalkSafe App Aug 2026
Typescript, React Native, Google Firebase

- Developed the official WalkSafe campus safety app using React Native, Expo, and Firebase, enabling students to request and locate safety escorts in real-time with live volunteer tracking.

Havoc (Programming Language) Jul 2026
TypeScript

- Implemented a compiled programming language in TypeScript optimized for competitive programming, featuring built-in graph, heap, and sorted set primitives with Python-like syntax.
- Achieved a 6.5–7x speedup over Python on BFS graph traversal (connected-component counting), holding steady across grid sizes from 4M to 100M cells, by compiling Havoc to native code.

Frogg Aug 2026
Python, discord.py, Railway

- Built and deployed Frogg, a Discord bot that scrapes Canadian tech co-op/internship postings every 6 hours, reaching 848 users across 26 servers; publicly listed on Top.gg.

Leadership

Co-Founder and Co-President Oct 2025 - Present
BSCS (Black Students in Computer Science)

- Led a developer team of 7 to build and ship WalkSafe, the official campus safety app, from concept to execution.
- Grew BSCS to 70+ members by organizing 7+ events including career panels, GitHub workshops, and social nights; co-hosted NEX-GEN 2026, a multi-organization tech conference with NSBE attracting 150+ attendees.

President Aug 2026 - Present
ColorStack UWindsor

- Founded the first ColorStack chapter in Ontario, joining a network of 90+ chapters across North America, connecting Black and Latinx CS students to careers in tech.

Skills

Languages: C#, TypeScript, JavaScript, Python, SQL.
Frameworks & Libraries: ASP.NET Core, React Native, React, Node.js, Express.js, FastAPI, discord.py.
Tools & Platforms: Git, Azure DevOps, Firebase, Vercel, Render, AWS.
