SEUN SAMUEL-IPAYE

519-992-7159 samueli@uwindsor.ca www.seun.ink

Skills

- Programming Languages: JavaScript, TypeScript, Python, R, SQL, Java, C, HTML, CSS.
- Frameworks & Libraries: React, React Native, Node.js, Express.js, Firebase, Git, Jira.

Education

Bachelor of Computer Science, Honours Computer Science Co-op Sep 2023 - Dec 2027
University of Windsor • ON

Professional Experience

AI Prompt Engineer Nov 2024 - Present
Outlier AI • Remote

- Designed and tested prompts to boost AI performance across various tasks, improving accuracy and relevance of outputs.
- Considered ethical implications of model outputs, ensuring responses met fairness and bias-reduction standards.
- Provided actionable feedback to refine AI models, identifying gaps in understanding and suggesting improvements.

Teaching Assistant (Data Structures and Algorithms) Sep 2025 - Present
University of Windsor • Windsor ON

- Collaborated with course instructors to identify common student challenges and develop resources to improve learning outcomes.
- Guided students through core concepts such as recursion, trees, and graph algorithms, strengthening problem-solving skills in Java and C.

Data Entry Clerk May 2025 - Sep 2025
GreenShield • Windsor ON

- Maintained high-accuracy health insurance provider records, improving process reliability and compliance.
- Utilized Advantage, Citrix, and Avanti to streamline data entry, improving processing speed by 25%.
- Demonstrated leadership by creating a new hire manual, ensuring a smooth onboarding process for new employees in my department.

Full Stack Developer Feb 2023 - Sep 2024
Base: Intelligent Communities • Remote

- Developed full-stack features using React Native (Javascript), Node.js, and Firebase, improving app performance by 30%.
- Collaborated with other developers, managed version control with Git and Github and ensured proper task management with Jira.
- Used i18-next and JSON to implement a multilingual feature on the app, which went on to be our main selling point.

Projects

Spotify Playlist Manager Apr 2025
Javascript, React.js, Node.js, Express.js

- Built a web app integrating the Spotify API to allow users to manage and transform playlists.
- Used intuitive drag-and-drop UX features for playlist editing, reducing users' playlist editing time by 70%.
- Implemented OAuth2 Authorization Code Flow with refresh token handling and secure backend token storage for seamless Spotify API access.
- Won "Best Undergraduate Project" award at the 12th UWindsor Computer Science Demo Day.

Extra Curricular Activities

- Head of Events for the Heart Health Club
- National Society of Black Engineers Executive Team member (Fundraising and Events)
